AIRSEALS

FOR ACOUSTIC AND ENERGY SAVING SOLUTIONS

Working closely with our key supply chain partners and as an independent 3rd party accredited company, R. Lewis and Co (UK) Limited is a nationally recognised specialist contractor in the fire protection and coatings industries.

Our aim is to provide you with the most cost effective, efficient and technically supported acoustic protection and energy saving solutions.

- Does your building comply with BREEAM standards?
- Are your building construction fabrics energy and acoustic efficient?
- Is a building product specification, acoustic or air seal installation system solution required?
- Do you require advice, an initial assessment or a complete site survey?
- Need to satisfy thermal insulation requirements for building zone regulations?
- Design, installation and after sales with periodic risk review and assessment of installed systems available.
